1. Introduction

1.1 Overview

The One Stop Service (OSS) is an online facilitation mechanism that seeks to bring relevant government agencies together, coordinated and streamlined, to provide efficient and transparent services to investors. Many countries around the world have established similar centres to centralize the execution of a number of regulatory, compliance, and value-added services through a single physical or virtual location. The purpose of an OSS is to provide investors with a single place for applying for and obtaining necessary approvals for different registrations, licenses, and permits required for investment in the country.

The Government of Bangladesh (GoB) aspires to be a middle-income country by 2021 and, therefore, is determined to continue improving the overall business and investment climate and strengthen the country's trade competitiveness by ensuring transparency, streamlined cross-government functions, and better access to information. Within this economic and strategic context, and following international best practices in attracting inward foreign direct investment, the GoB has envisioned to implement an OSS for facilitating investor services and promoting investment in the country. The envisioned OSS will bring the services of approximately 35 agencies into one single platform to provide easy access to investor services.

OSSs seek to reduce the time and cost required by the private sector to start up new investment businesses and comply with investment regulatory requirements—as all forms required to obtain particular registrations, permits, and licenses are submitted in a single place. OSSs also increase transparency of government processes by reducing the number of contacts between applicants and the government, which in turn reduces the possibility for rent-seeking². Most importantly, OSSs promote a mindset of customer service within the government. All of these benefits of OSSs increase the attraction of formal investment—both foreign and domestic—which, in turn, translates to increased business activity, increased capital, and jobs' creation. Hence, OSSs are an effective part of the equation to increase investment and a country's overall competitiveness.

This scenario will be used by the investor services applicants that have access to the internet and can be authenticated on the portal through the electronic signature. The applicants will not have to visit the offices of BIDA and will be able to submit the

application in electronic format and attach all the necessary documents in electronic format as well. The applicant will apply by performing the following steps:

1. Access Bangladesh Investment Information Portal.
2. Authenticate to the portal using electronic signature
3. Browse through the list of investor services and select the necessary service.
4. After selecting the service, the applicant will fill in the electronic form with the necessary information. The form will also contain the list of attachments to be attached to the application.
5. The applicant will attach the necessary documents.
6. The applicant pays the fee for obtaining the permissive document using the Payment Gateway. After performing the payment, Investor OSS system (will receive the payment confirmation from the Payment Gateway.
7. After all of the documents are attached and application form is filled in, the applicant can save the application as “Draft” or can submit for processing to BIDA.
8. BIDA employee responsible for the service receives the notification via email or Investor OSS regarding the incoming new application.
9. If the application is not full or contains false information or documents, the representative of BIDA refuses the acceptance of the application. The applicant is notified of the refusal of the application.
10. The Investor OSS will generate a unique application number that will be used by the applicant to monitor the status of processing the application by logging in to the Investor OSS through the Bangladesh Investment Information Portal (BIIP).

2. Description of New User Registration to OSS

The objective of this assignment is to develop a national online OSS to provide electronic investor services to domestic and foreign investors. These services shall entirely be automated, paperless, and cashless. Specifically, all services shall be requested and rendered electronically via an online platform; all required supporting documents shall be transmitted, stored, and processed in electronic format; all applications shall be signed electronically; and all required official payments shall be made electronically in real time. The OSS shall be owned, operated, and regulated by BIDA. Its implementation shall adopt a service-oriented architecture that allows it to interface with already existing independent electronic systems of other participating agencies. The OSS shall ultimately serve as a single window and the only point of contact between the Government of Bangladesh and investors. The OSS shall comprise the following components:

1. A single website comprised of two sub-components. First, an online platform for delivering investor services to registered users. The platform will enable investors to view, request, and receive services and will enable the concerned government agencies to deliver those services. Second, an information portal for presenting all investment news, statistics, reports, primary and secondary laws, guidelines and instructions, and any other investment related information. This investment information portal shall be called the Bangladesh Investment Information Portal (BIIP).
2. An internal workflow management system that enables BIDA to process applications in the back office. The workflow management system shall automatically orchestrate electronic service delivery through the concerned participating government agencies as well as the flow of information among them.
3. An internal document management and archiving system.
4. A centralized backend data storage system with data redundancy, which enables BIDA to store and manage all transaction, user, and system data.
5. An internal reporting engine and data discovery and visualization tools.

3. Key objectives of One Stop Service (OSS)

1. Integration with the proposed national one-stop shop for investor services.

1.1 This service is entirely automated, paperless, and cashless. Specifically, this service shall be requested and rendered electronically via the OSS online platform; all required supporting documents shall be transmitted, stored, and processed in electronic format; all applications shall be signed electronically; and all required official payments shall be made electronically in real time.

1.2 Changing project registration from a review and approval process to a notification process.

1.3 Automatically checking at the time of registration that the business is fully compliant with all laws. For example, the system will automatically check in the background the company's compliance with tax and customs via NBR's portal. As another example, it can also check via RJSC's portal whether any of the company's directors have become disqualified since the company's incorporation.

1.4 Introducing an effective monitoring and evaluation system.

1.5 Freeing senior resources from routine administrative tasks that can be fully automated so that they can focus on strategic activities.

1.6 Changing the fee structure to recover actual administration costs only as opposed to generating additional revenue.

1.7 The government agencies that are involved in this process are the following: (1) BIDA; (2) NBR, RJSC, and possibly others, via their online portals and electronic systems for background checks; and (3) Concerned government agencies when the proposed industrial project operates in a controlled industry.

4. New User Registration & Basic form Submission

4.1 How can login to OSS

The online One Stop Service System is a web-based application for investors to complete Business Licence & all kind of investor's services formalities. To start the OSS system, investor has to open an internet browser such AS Internet Explorer, Mozilla Firefox, Opera or Google Chrome and has to type "<https://bidaquickserv.org:8012>" in the address bar. Or investors have to search to google search bar as BIDA One Stop Service, or investors has to browse the BIDA information portal as www.bida.gov.bd then the one stop service portal will come.

Bangladesh Investment Development Authority (BIDA)

Prime Minister's Office

Registration No : BR-16Dec2018-00002

Dated: 16 December 2018

1. As per the industrial policy the sub-sector is neither in the reserved list nor discouraged list. Therefore the proposal of the project may be registered on the following conditions:

Investors should be aware that:

(a) They are free to procure infrastructural and other services/utilities (including environment clearance) needed for the implementation and operation of their projects directly from the concerned agencies/departments. Alternatively, the BIDA will also assist investors in obtaining requisite services/utilities from the concerned government agencies/departments on request from your company. In this connection, investors shall have to contact the BIDA Utility services cell.

(b) BIDA is ready to assist/provide a range of services, including advice, information and clarification on a range of investment related issues, government policies procedures and regulations.

(c) The project, eligible for various tax incentives, as articulated in the government's industrial and economic policies and in public notices issued from time to time by relevant government agencies, may obtain copies from BIDA Utility Services Cell.

(d) Certain products are required to conform to standards established by the Bangladesh Standards & Testing (BSTI), prior to marketing. Please check your product standard.

2. Investors shall have to follow/take the under mentioned conditions/measures:

3. You shall have to take necessary safety measures as per Factories Act, 1965.

4. You shall have to import the machinery, spare parts and raw materials as per existing import policy order of the Government.

5. You shall have to arrange sufficient fire fighting equipments as safety measure to the project.

6. You shall have to obtain necessary clearance from the Department of Environment before implementation of your project.

7. You shall have to submit the Quarterly report to BIDA (IIMC) regarding progress of implementation of the project in every quarter till the unit goes into commercial production. After going into commercial production, half-yearly performance report regarding production and employment of your project shall have to be submitted.

8. You shall have to arrange preservation of rain water for using in your factory to reduce pressure on ground water.

9. You shall have to take prior permission from BIDA in case of any amendment of this registration letter including ownership or location of the project.

10. Any effluent of the industrial unit should not be discharged into the river connecting lake or general water reservoir without proper treatment.

11. You shall have to provide/create the following facilities, if applicable;

(a) Day care center

(b) Maternity leaves

(c) Low cost & safe housing facilities for the low paid female works, near & around the establishment

(d) Equal pays & allowance for male & female workers in your organization

(e) Low priced canteen for workers

(f) Enact effective rules of conduct to enable working atmosphere among the male & female workers.

12. You shall not be allowed to do any business/trade other than services at column No. 7 under this registration.

13. You shall have to abide by the guidelines of the government in case of employment of expatriate personnel in your project.

* You shall have to market 0.00% and export 100% of your products

* You shall have to implement your project within June, 2016

The Bangladesh Investment Development Authority reserves the right to cancel the registration of the investment if any of the above conditions or any part of the conditions is violated.

You are requested to mention Registration Number in all your future correspondence with BIDA

Sub: Extension of permission for Branch Office

Dear Sir,

With reference to your applications received on 16 December 2018 & 16.12.2018 on the above subject, this is to inform you that according to the decision of 1008 Interministerial Committee meeting held on 16.12.2018, the Bangladesh Investment Development Authority of Bangladesh has been pleased to extend the period of Branch Office in Dhaka for further with effect from on the following terms and condition:-

1. The activities of your Branch Office shall remain confined to This is test one.
2. You shall have to report to Bangladesh Bank within 30(thirty) days of obtaining permission from Bangladesh Investment Development Authority to establish in Bangladesh a branch office or liaison office or representative office or any other place of business for carrying on any activity of a commercial nature and the same reported letter shall have to submit to BIDA for recording.
3. In case you intend to continue your office beyond the period approved in this order, you shall have to apply for necessary renewal in the prescribed form at least 2(two) months before expiry of present term.
4. Ministry of Home will issue security clearance in favour of your office after verification.
5. If you intend to employ any foreign national(s) in your office, prior government approval should be obtained from this Authority. In this context, you are to ensure appointment of 5(five) local people at your office preferably in executive position under appropriate pay structure against 1(one) foreign national.
6. While operating, your business programme in this country, you shall have to abide by the rules, regulations, orders and instructions issued by the Government of Bangladesh from time to time.
7. All operational, functional and establishment costs including salaries of the expatriates and local employees in your office will be met on receipt of remittance from abroad.
8. No outward remittance of any kind from Bangladesh sources will be allowed.
9. If your office earns profit locally and wants to meet the necessary expenditure of the company in Bangladesh with that profit, you can apply to this Authority with proper justification and sufficient supporting documents for exemption of condition-7 & 8.
10. You shall have to open an account with any scheduled Bank of Bangladesh for receipt of remittance to meet the expenses mentioned in condition-7 & 8 above.
11. Quarterly return of income and expenditure out of remittance receipt from abroad shall have to be submitted to this Authority, Deputy Commissioner of Taxes, Companies Circle-17 or circle-59(as applicable) and Bangladesh Bank.
12. Any change of your present address should be intimated to this Authority for necessary action before the change is actuated.
13. The permission issued under this order does not exempt you from the responsibility for obtaining clearance from any other Govt. agency if required under the existing Laws/Rules of the country.
14. You are not entitled to open any other business establishment beyond what has been sanctioned under the coverage of this order. If you intend to open any business establishment other than this, you have to apply separately.
15. Income tax shall have to be deducted at source while paying house rent, salaries, bills for supply of goods, services and contract work & stamp; subsequently to be deposited to the government accounts as per provisions of Income Tax Ordinance, 1984.
16. The permission issued under this order may be revoked, suspended and altered either in part or whole and new condition be added at any time without assigning any reason thereof.
